Summary

I am a passionate web application and software developer specializing in MERN Stack web development. As a frontend developer, I bring a strong foundation in HTML, CSS, and JavaScript, coupled with deep expertise in React.js. I can develop any Figma or PSD template into React.js, and it will be responsive. I develop using modern frameworks like Tailwind CSS to create visually stunning websites.

Currently, I'm working with Node.js, MongoDB, and Express.js. Recently, I developed an e-commerce website named Daraz, which showcases my capabilities and sets me apart from others in the field

Work Experience

● Project-My Portfolio

I have also developed a personal portfolio showcasing my web development projects, It serves as a testament to my skills and provides real-world examples of my work, including responsive web designs.

● Ecommerce

I am working on an E-commerce product called Orebi. My role is to develop Components, Routes, Hooks, Redux, form Retching API data presenting data on the website while maintaining the exact UI.
